3. UNIT ECONOMICS & MONTHLY COST REDUCTION

Cost per Patient Visit

With silence trimming and prompt caching, complete ambient transcription and clinical SOAP note generation costs only **\$0.09 CAD (under 9 cents CAD per visit)**, down from \$0.21 CAD.

Cost per Doctor per Day

Supporting a physician seeing 30 patients across a full clinic day costs just **\$2.69 CAD / day** in total AI and cloud infrastructure, down from \$6.19 CAD/day.

Net Monthly Savings

Cost optimization saves **\$2,728.05 CAD every month** (\$32,736 CAD annually), while preserving identical clinical note quality and turnaround speed.

Key Cost-Reduction Finding: Deepgram audio transcription represents **86.9%** of all operational spend. In clinical appointments, actual doctor-patient dialogue is only 12–15 minutes (the remainder is silent physical exams and chart review). By applying adaptive silence trimming (cutting dead air) and switching to Deepgram's Growth tier (\$0.0036/min), Deepgram spend drops from \$4,195.85 CAD down to **\$1,638.00 CAD**, delivering the vast majority of savings automatically.

6. PITCHING TO SAINT MARY CLINIC LEADERSHIP (THE CLINICAL VALUE EQUATION)

The Physician Burnout Problem

At 30 patients a day across 26 days (780 visits/month per doctor), doctors face enormous charting burdens. Documenting notes manually takes an estimated **2.5 hours of evening charting every day per doctor**. Across 30 doctors, that equals **75 hours of overtime charting daily** (1,950 hours every month across the clinic).

The Alberta Physician ROI

Anot Health delivers structured, audit-proof SOAP notes instantaneously at visit end. By eliminating 2.5 hours of daily charting per doctor across 26 days, the clinic reclaims **1,950 hours of clinical time per month**. Valued at an average Alberta physician clinical value of \$175 CAD/hour, that represents **\$341,250 CAD in monthly clinical value** for an investment of \$16,470 CAD.

Strategic Negotiation Recommendation: Present Package B at **\$549 CAD / doctor / month** (\$16,470 CAD / month total). Because our optimized operational delivery cost is only **\$2,101.30 CAD / month**, Anot Health achieves an outstanding **87.2% gross margin** (generating **+\$172,424 CAD in annual net recurring profit**) while offering Saint Mary Clinic an unbeatable ROI of over 20x in physician time savings.
